ORDER HOLDING IN  
ABEYANCE CONSIDERATION  
OF REVIEW OF BRUNSWICK  
STEAM ELECTRIC PLANT  
OUTAGE WHICH BEGAN  
APRIL 21, 1992

This matter is before the Public Service Commission of South Carolina (the Commission) on its consideration of the outage at Carolina Power & Light Company's (CP&L's) Brunswick Steam Electric Plant (BSEP) which began on April 21, 1992. The Commission has been informed that the BSEP continues to be out of service and will likely remain out of service until sometime in 1993. The Commission notes that the period under review for the March 1993 fuel proceeding is from July 1, 1992 through December 31, 1992. See Order No. 92-830 (September 28, 1992), in Docket No. 92-004-E.

Because it appears unlikely that the BSEP will return to service before the close of the period under review in this docket, the Commission finds that review of the BSEP outage which began on

April 21, 1992, should not be considered at the fuel proceeding in March 1993. Further, the Commission concludes that consideration of the outage should be postponed until completion of the outage.

IT IS SO ORDERED.
